

“ The weak can never forgive.  
Forgiveness is the attribute of the strong.”

Gandhi

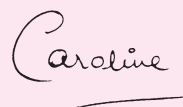

**T**he old adage goes - “*Time Flies*” and it sure is flying, one can hardly believe that it’s April already! One would be inclined to say that Spring is in the air but Spring has been around us for quite a while now; the flowers have blossomed, birds are singing and my God this global warming is very alarming! We live in strange times these days and if its not one thing, then you can be sure that it will be another. There is always something to talk about: we have more talk shows, discussions and forums and more experts giving us more opinions on what and what not one should be doing.

We say actions speak louder than words and yes we at HILTON MALTA have actively participated in the We Care campaign which is organised by Hilton International. The environment is important to us as are the energy sources. You already know that we were the first hotel in Malta and the first Hilton hotel in Europe to be given the Green award but we have also reached the stipulated target of reducing energy consumption by going green and placed first in all of the Mediterranean Region. All our team members are being awarded a mountain bike as a sign of gratitude in achieving the stipulated goals from the Hilton International We Care campaign organisers.

It’s great to know that all this has not in any way affected the extraordinary service that you have all been accustomed to. All this goes to show that even you can help save our environment and our precious Earth, all one has to do is start from somewhere and keep on taking that action.

We are also very proud to inform you that your clients and our business associates have been gracious enough to choose the Hilton Malta as one of the top hotels in the World Category for luxury, as reflected in Trip Advisor. We appreciate this recognition and acknowledge, with thanks, your part in it. This recognition is extra special as we were the only Hotel in Malta to have been credited.

We have another jam packed, exciting issue for you. Easter is around the corner and we have some exciting ways on how to spend this holiday with your family and friends. We are proud to pamper and spoil our Mothers, so we have created the perfect setting for her on this special day. Take a look at our Hilton Mini Breaks feature and start planning your get away...then tell us all about it.
